Burp Suite Community Edition ▾

Windows (64-bit) ▾

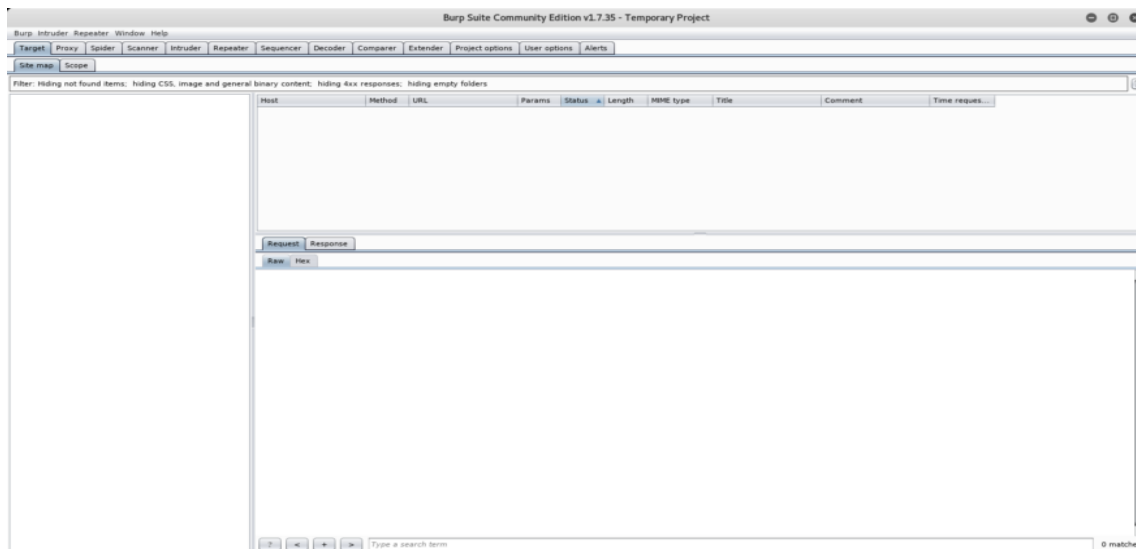

↓ DOWNLOAD

show checksums

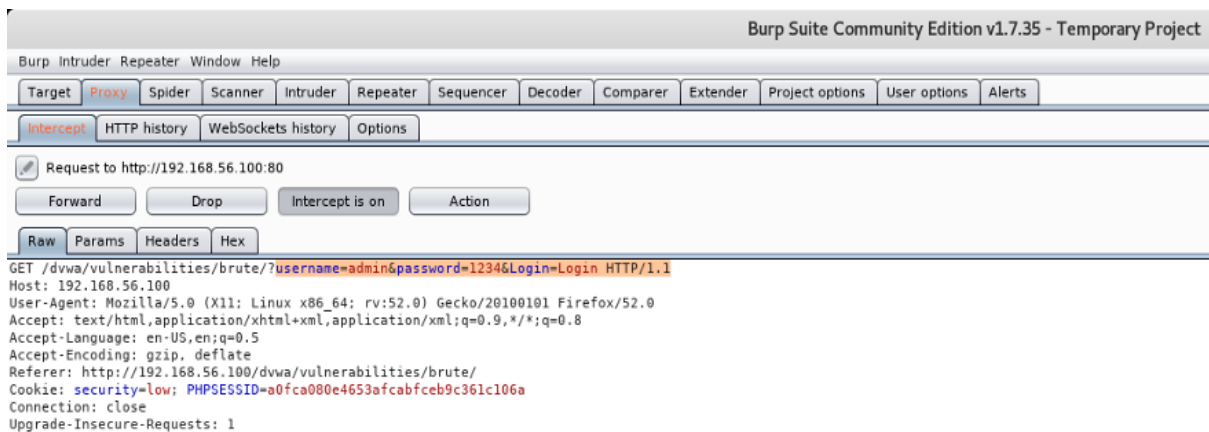

This release upgrades Burp's browser to [Chromium 106.0.5249.61](#), which fixes a number of high-severity security issues.

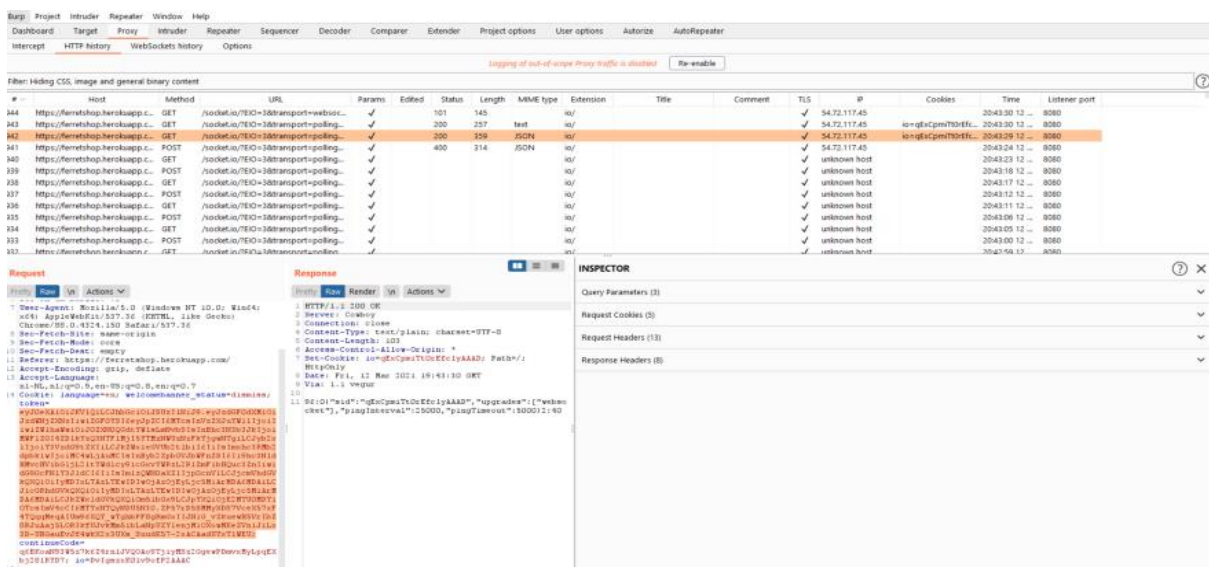

STEP 02: Launch Burp's browser

STEP 03: Intercept the traffic and manipulate the request and forward

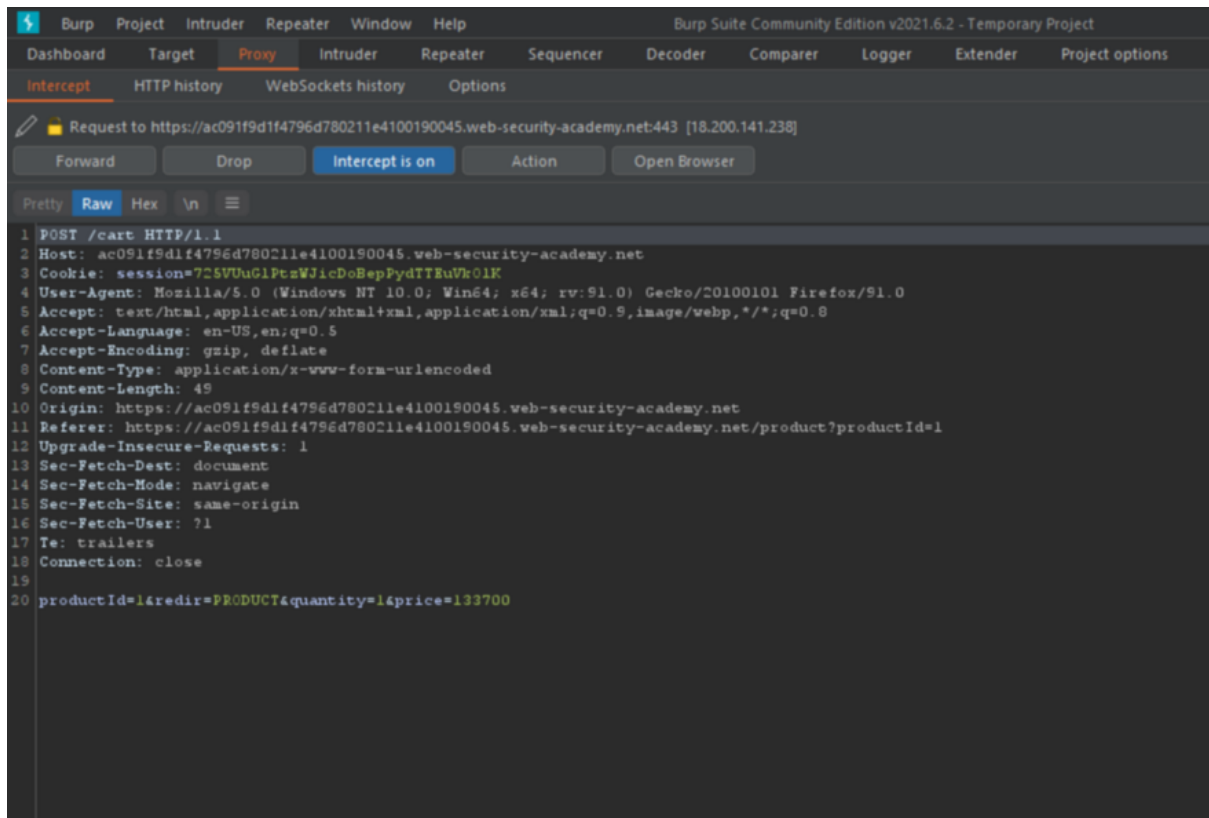

STEP 04: View the Burp Suite response tabs

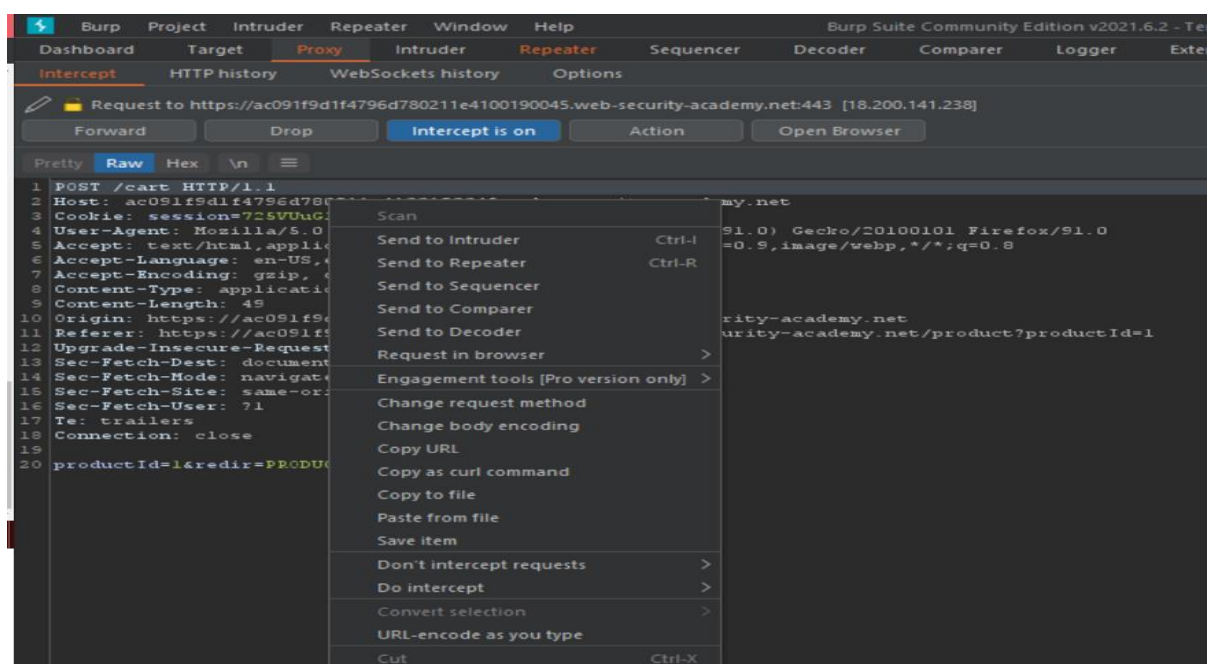

Solving a basic lab from Portswigger using Burpsuite

Step 1: Turn on proxy

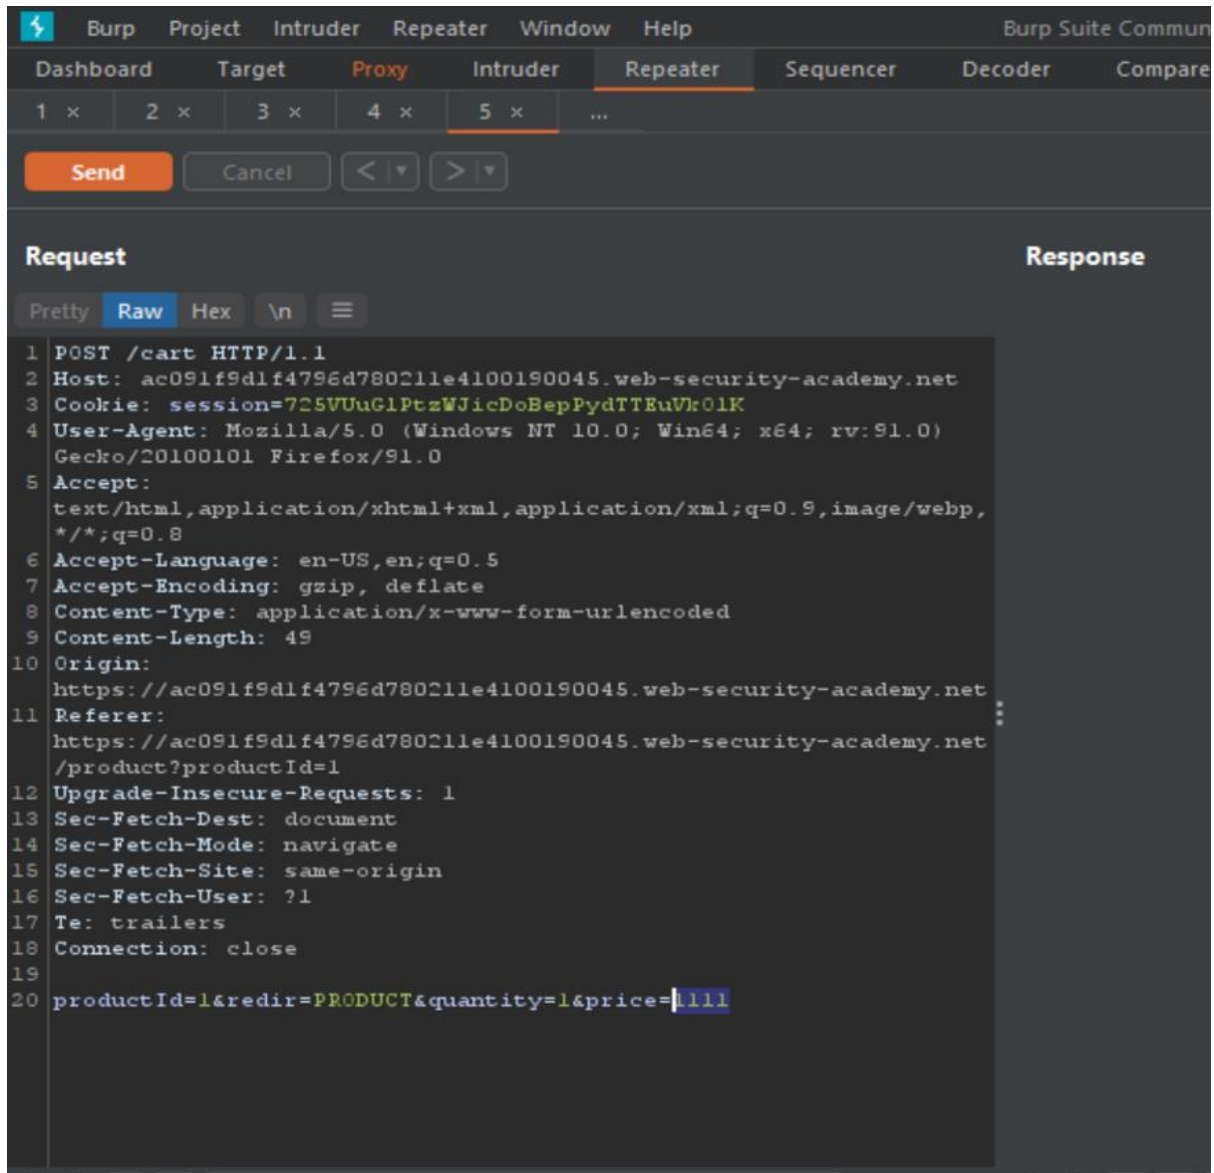

Step 2: press Add to Cart

Step 3: Send this Post to Repeater so we can play with the fields and see if we can change the price

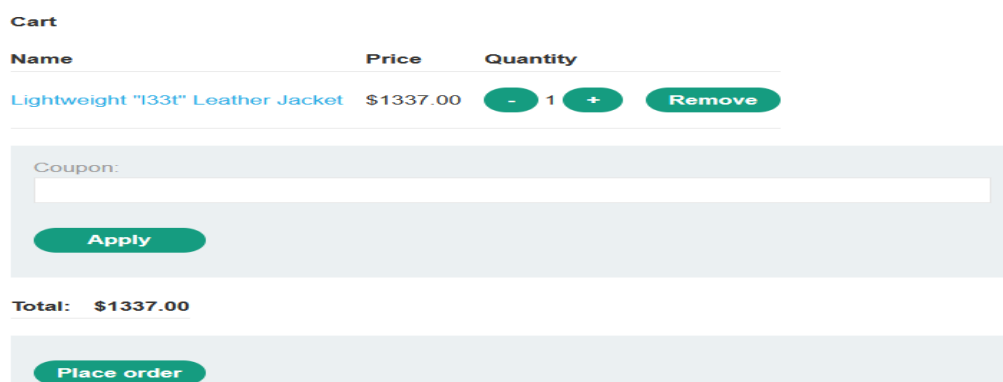

STEP 4: Go to repeater and change the price to something like 1111

STEP 5: Turn off Proxy

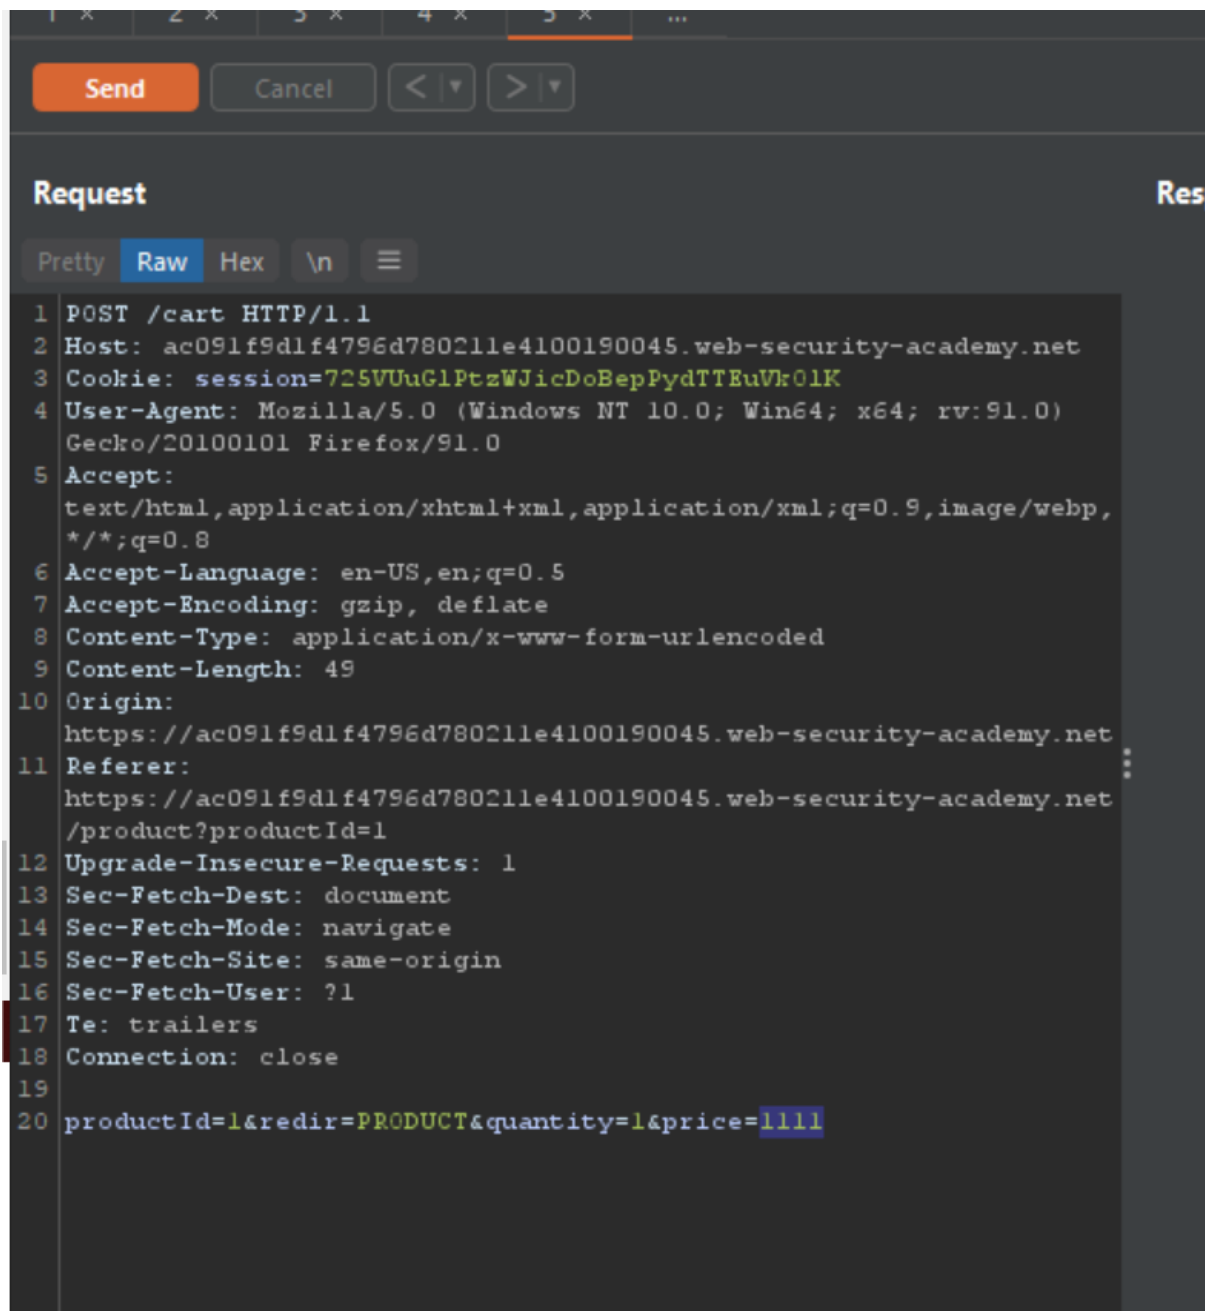

Step 6: Go to Cart and remove the item with "Remove" button. That price is too high

Cart

Your cart is empty!

Step 7: Press send on the Repeater with the changed price

STEP 8: Refresh the Page

Cart

Your cart is empty!

STEP 9: Refreshed page should have your new price — \$11.11

Cart

Name	Price	Quantity	
Lightweight "l33t" Leather Jacket	\$11.11	- 1 +	Remove

Coupon:

Apply

Total: \$11.11

Place order

STEP 10: Press 'Place Order'

Ready?

Congratulations, you solved the lab!

Store credit:

\$88.89

Your order is on its way!

Name	Price	Quantity
Lightweight "l33t" Leather Jacket	\$1337.00	1

Total: \$11.11

LAB DONE.
